

Astrix Staffing Solutions for CDMO

Contract Development and Manufacturing Organizations (CDMOs) are essential to bringing life-saving therapies to the market. But success is dependent on one critical factor: reliable and specialized talent.

With Sponsors becoming more cost conscious and pushing tighter deadlines, talent shortages can drastically jeopardize outcomes. Astrix delivers scalable, flexible staffing solutions designed to meet your operational goals, on time and on budget.

Whether you're focused on APIs, Small Molecule, Biologics, Cell & Gene Therapies, or a specialty like Radiopharmaceuticals, we have the technical knowledge, experience and track record you can count on.

STAFFING SUPPORT ACROSS THE CDMO LIFECYCLE

Stage	Roles
Drug Discovery	Research Associates, Scientists, Cell Culture, Molecular Biology, Pre-clinical (In-vivo/ ex-vivo), AI/ML
